to Amazing  
Senior  
Portraits*

& Digital Imaging*

## Why Choose Image Photography?

As a senior you only want the very best in your senior portraits. At Image Photography our goal is to make sure you love your senior pictures. Whether it be having the most experienced photographer in the area make your portrait, or printing of the portrait, every step taken in the creating of your senior portraits is designed to give you the very best images possible.

## When Should I Make My Appointment?

SOON! Sessions are limited and fill up fast. All Seniors who have their pictures taken by July 15, 2011 will receive 39 wallets at no additional charge.

## What Does A Session Include?

On your scheduled date, arrive a few minutes early so you will be able to speak with the photographer beforehand and finalize details such as session selection, props to be used, and location selection for your photo shoot.

You may view the images made in your photo session shortly thereafter on our digital preview system with a member of our staff, who will retouch and enhance selected images to create your original prints.

A date to receive your original prints for viewing at your convenience and a date to return the original prints and place your final order will then be scheduled.

If you have any questions or concerns at any time before, during or after your photo session feel free to give our helpful staff a call at: (218) 751-8308 or 1 (800) 477-7068.

## What Should I Bring?

Bring at least three outfits to your session, if not more. **We DO NOT limit the number of outfits you bring.** We suggest something formal for traditional head and shoulder portraits and something casual

with a variety of colors and styles. Bring denim, jackets, hats and other cool accessories to create a casual look. To add variety, bring additional articles such as shoes, hats, or other accessories to match your outfits. They are sometimes overlooked!

Bring your guitar, sports uniforms, vehicle, motorcycle, skateboard, skis, friends, parents, siblings and any items that express your personality. **If in doubt, bring it along and we'll help you decide.**

**Guys:** A suit and tie look great, but are not mandatory. Sweaters and dress shirts also photograph well. It is essential to shave; five o'clock shadows are hard to remove. It wouldn't hurt to get new shoes or spruce up those old ones as well.

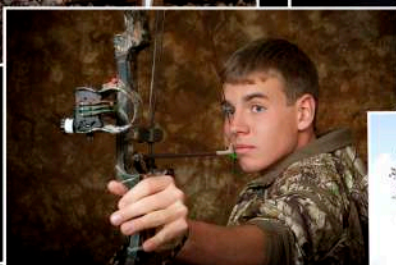

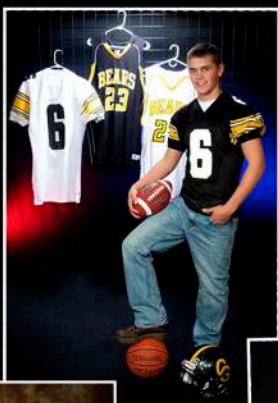

**Girls:** Don't forget to bring matching shoes and accessories for your special outfits. Watch out for tanlines, they are difficult to remove. Bring sweaters or dresses that have long sleeves and are in solid, medium or dark tones.

## What About My Hair?

We recommend that you not make any radical hairstyle changes before your portrait session. However, you may wish to vary your hair style during your portrait session. Stay with looks that typify you and your personality. Have your hair styled and permed about a week before your session.
